

Financial Reporting Preparation Manual
Agricultural, Consumer, Service and
Credit Union Cooperatives

Cooperative Auditing Department
Office of Accounting and Auditing Standard

Preface

The financial statements are a formal presentation of the financial position and results of operations of cooperatives and farmer groups which have objectives to disclose information relating to their financial position and operating results as well as the relevant information disclosed in notes to the financial statements. Those financial statements are useful for economic decision making of the cooperatives' members and other financial users. Moreover, they represent management operating results of cooperatives' committees and farmer groups as well.

This Financial Reporting Preparation Manual for agricultural, consumer, service and credit union cooperatives has been made to facilitate the types of cooperative agricultural, land settlement, fishery, consumer, service, and credit union cooperatives (only Credit Union cooperatives operate their business relating credit, cash deposit and others) and farmer groups with operating share capital as at the end of their accounting period from Baht 1,000,000 to prepare their financial statements in the same standards. The important content of this manual is the financial presentation reporting format determined by the Cooperative Auditing Department which comprises of the statement of financial position, statement of income, statement of costs of goods sold/services rendered and statement of production costs, notes to the financial statements and other explanatory notes.

The Cooperative Auditing Department strongly believes that this Financial Reporting Preparation Manual for agricultural, consumer, service and credit union cooperatives will be definitely useful for cooperatives, farmer groups, the other relating parties as well as interested public.

Explanation for the Financial Statement Preparation

Explanation for the statement of financial position Items

The presentation of the statement of financial position of Agriculture, Industry, Fishery, Shop, Service and Credit union cooperatives which have the operating share capital greater than or equal to Baht 1,000,000 (Only for the Credit union cooperatives which operate their business only credit, cash deposit and others shall follow the aforementioned guidelines and the following types and definitions as follow:

Heading of the statement of financial position

As at..... the fiscal year-end date of the current year e.g. Asat March 31, 2014 etc.

Assets

mean that the tangible assets or intangible assets which are controlled by the cooperatives as a result of past events that may acquire from buying, building, making, leasing, or donation and the cooperatives will receive the future economic benefits from direct or indirect flows of cash or cash equivalent, including they are able to be valued reasonably.

Assets comprise the followings:

1. Current assets
2. Non-current assets

1. Current assets mean Cash or assets that the cooperatives held for sale or use for the normal operation and expect to receive the benefit of such assets within 12 months after the date of the statement of financial position. If the cycle of normal operation of the cooperative is less than 1 year, it is mandatory to use 1 year consideration for classification of current assets.

1.1 Cash and deposits at financial institutions

Cash means bank notes and coins that the cooperative has including cheque in-transit, travel cheque, bank draft, postal order and money order but excluding postal stamp, duty stamp, post dated cheque, borrowing document and financial documents e.g. bill of exchange, government bonds, bonds share certificate, and etc.

Deposits at financial institutions means every type of deposits at bank including certificate of deposit, Government Savings Bank's Lottery, Thaweesin lottery or others, issued by banks and financial institutions.

◆ **Certificate of deposit** is notes that can be convertible at commercial banks or investment companies. It is issued for depositor as the evidence of deposit money and presented the right of the notes holders to receive return of the deposit when it ends of the determined date. It can bear interest or not.

◆ **Government Savings Bank's Lottery** is the special savings deposit from the Government Savings Bank. The buyer of Government Savings Bank's lottery has rights to win the rewards as the Bank determined. The limit terms for withdrawing each type of lottery are different and it can be withdrawn before the due date but the refund will be decreased as the Bank determined.

◆ **Thaweesin Loterry or others issued by banks and financial institutions** is the saving deposit service which the buyer has right to win the rewards as the Bank determined. The limit terms for withdrawing each type of lottery are different and it can be withdrawn before the due date.

Cash shortage shall be presented solely in the line next to Cash and Deposits at financial institutions. The presentation of cash shortage will be cash shortage deducted by allowance for cash shortage as follow:

Cash and deposits at financial institutions	_____
Cash shortage	50,000.00

<u>Less</u> Allowance for cash shortage	50,000.00

	0.00

1.2 Deposit at other cooperatives means the money that the cooperative makes deposit with the Cooperative Federation and other cooperatives

In case of having only deposit of the Cooperative Federation, it shall be stated as "Deposit of the Cooperative Federation" instead of "Deposit at other cooperatives"

1.3 Cash Payment in-transit means the money for settlement but cannot be identified which amount is interest or principal or it has not received the settlement evidence.

1.4 Investment means the securities that the cooperative held for the future benefit in term of income or other benefits. It is the investment which can be invested according to the cooperatives' laws or the requirement of Board of National Cooperative Development (NCD) e.g. shares of Cooperative Federation, shares of the bank who has objectives for financial supporting to the cooperatives, government bonds/state of enterprise bonds, bill of exchange of the Cooperative Federation, the first Vayupak fund, bank bonds, etc.

Short-term investment means the securities that cooperatives will hold less than 1 year and will sell when it needs cash and the current portions of the long-term investment that will be redeemed within next one accounting period.

The classification of investment and the valuation as of the end of accounting period

1.4.1 Marketable securities mean securities or investment which are being traded in the Stock Exchange of Thailand or other markets that the prices are public e.g. shares of the listed company in the Security market, shares of the commercial banks and financial institutions, bank bonds which is trade among banks which the price are public, etc. The valuation is based on fair value and net with the allowance for the valuation of investment.

1.4.2 Non-marketable securities mean securities of investment which are not being traded in the Stock Exchange of Thailand or other markets that the prices are public e.g. share of Cooperative Federation, bill of exchange of Cooperative Federation, etc. The valuation is based on cost method.

1.5 Short-term loans-net mean the lending money in all kinds to other cooperatives and to members which have lending contract as evidence. The amount is outstanding balance with the cooperative deducted with the allowance for doubtful accounts (spare for uncollectable Account receivables) and allowance for discrepancy debt (set up for Account receivables that the sub accounts has total amount more than controlling accounts').

1.6 Short-term account receivables –net mean the rights to claim from others in term of cash, goods, or other services which have payment period within the next 1 year accounting cycle, including all kinds of the due account receivables but has not been paid. The amount is deducted with the allowance for doubtful accounts and allowance for discrepancy debt. The Short-term account receivables - net compose of any receivables as follows:

- ◆ **Note receivable** means receivable for goods and services from the cooperative sells goods or provides service and receives the payment from customer in for form of note receivable.

- ◆ **Trade Account receivable** means the unpaid amount of goods that the cooperative sells in normal conditions.

- ◆ **Account receivable – bought-through account products** means the money that members have not paid for goods that the cooperatives are the contractor.

- ◆ **Installment receivable** means the money that members have unpaid for goods that the cooperatives sold per installment method. The amount will not be deducted with allowance for doubtful accounts but will be deducted with the deferred interest from installment.

◆ **Service receivable** means the money that members have unpaid for the service that cooperatives have provided.

◆ **Other receivable** means the receivables that cannot be classified into above receivables e.g. advance for committees and officers that borrow from the cooperatives including the liability that committee and officers have with the cooperatives in any kinds, e.g. cash shortage receivables inventory shortage receivables (which having document of the acceptance of fault to cooperatives), the deviation of receivables (differences of total amount of sub accounts less than of controlling accounts), receivable in prosecute (the receivables had a legal action to the court and court had notification of such legal action), judgment debtors (the receivables had prosecute and the court had judgment or compromising contracts for return money to cooperative, etc.

Important criteria for the presentation of receivables

◆ The receivables which have outstanding in credit balance (occurring from over payment) shall be presented in other current liabilities

◆ In case only receivable, no allowance for doubtful accounts and no allowance of discrepancy receivable, the presentation shall be indicated the type of receivable, not stated “net” and not presented in notes to financial statements

◆ In case all types of receivables have the whole amount of allowance for doubtful accounts, it shall present each type of receivable explicitly with the deduction with the allowance of doubtful accounts as follow:

Short-term investment
Account receivables	3,000.00
Cash shortage receivables	10,000.00
Inventory shortage receivables	7,000.00
	<hr/>
Total	20,000.00
Less allowance for doubtful accounts	20,000.00
	<hr/>
	0.00
	<hr/>

Note: No note to disclose into the financial statements

◆ In case the current year the Cooperative has fully recorded amount of allowance for doubtful accounts but partially for last year, it shall be presented based on current year, specifying each type of receivable explicitly with the deduction with the allowance for doubtful accounts as follow:

	<u>Current Year</u>	<u>Prior Year</u>
Short-term investment
Trade Accounts receivable	3,000.00	3,000.00
Cash shortage receivables	10,000.00	10,000.00
Inventory shortage receivables	7,000.00	7,000.00
Total	20,000.00	20,000.00
Less allowance for doubtful accounts	20,000.00	18,000.00
	0.00	2,000.00

Note: No note to disclose into the financial statements

◆ In case all types of receivables have the partial amount of allowance for doubtful accounts in the current year, but have the whole amount in the prior year. It shall present by aligning with the current year as normal format as follow:

	<u>Current Year</u>	<u>Prior Year</u>
Short-term investment	_____	_____
Short-term account receivables–net	_____	_____
_____	_____	_____

1.7 Accrued Interest receivables–net mean the interest from lending money to members or other cooperatives in all kinds that the receivables are unpaid to the cooperatives deducted with the allowance for doubtful accounts.

In case of no allowance for doubtful accounts, it shall not be presented “net” and no notes needed for the financial statements.

1.8 Inventories mean the assets held for sale as normal business operations. In case the cooperative is manufacturing, the inventory will be included the inventory in process of production and raw material for production. However, the inventory will not be included the consignment goods, the supplies used for factory and office, the inventory recorded in sales but the buyer had not received the goods yet. The goods which had been ordered and recorded in purchases but received partially, it shall be counted such partial as inventory as well.

The above inventories should be in good conditions plus obsolete inventories whereby its quantity should be the same as physical count at the end of accounting period, consisting both good and obsolete inventories.

In case there is any shortage of inventory (the shortage of inventories with lacking of staff responsible for or in process of consideration for responsible person), it shall be presented in the statement of financial position as the transaction after “Inventories”, presenting deducted with the allowance for inventory shortage (presenting as the shortage that no one responsible for) as follow:

	<u>Current Year</u>	<u>Prior Year</u>
Accrued interest income - net	_____	_____
Ending inventories	_____	_____
Inventory shortage	_____	_____
<u>Less</u> Allowance for inventory shortage	_____	_____
	_____	_____
Other current assets	_____	_____

1.9 Other current assets mean

1.9.1 Ending supplies mean the minor parts used for the production of goods They might be component or ingredient e.g. chemical products, fuel oil, lubricate oil, etc. They are included the brought things or acquired for normal operation of the cooperative which will be used up in the short period e.g. stationery, office supplies, etc.

1.9.2 Advance payment e.g. advance rental payment, advance insurance payment, etc

1.9.3 Accrued income e.g. accrued fine (presenting the accrued amount less allowance for doubtful accounts), accrued rental income, accrued commission income, etc

1.9.4 Deferred refund of overpayment debt or account payable in debit balance

1.9.5 Dividend and average money refund deviation

1.9.6 Property foreclosed means the assets belonging to the cooperative as receiving from debt payment or the assets that were mortgaged with the cooperative, were brought from the auction by orders of the writ or from the official receivers.

1.9.7 Other current assets that are not presented in item No. 1.1-1.8

For the advance payment for lawsuit, when it is explicitly known that the lawsuit will be ended within 1 next accounting year, the advance payment for lawsuit of such part that the lawsuit will be ended up shall be presented as other current asset.

When the item in other current assets has amount not less than 5% of total other current assets, it shall be presented solely item as such current asset by indicating clearly name and rank it before the item “other current assets” as the example below:

.....
Ending inventories	100,000.00
Advanced insurance payment	20,000.00
Other current assets	500.00
Total current assets	<u>300,000.00</u>

In case of the item of 5% of total current assets of current year differs from amount of the prior year, the current year will be the main for presentation.

In case of other current asset has only one item, it shall indicate the name of such other current asset instead of “Other current assets” as the example as below:

.....
Ending inventory	100,000.00
Advanced insurance payment	2,500.00
Total current assets	<u>300,000.00</u>

2. Non-current assets mean assets which are not tangible and intangible current assets, monetary assets and long-term specific operating assets. Normally, the expectation period to receive the benefit of such assets will be more than 12 months after the date of the statement of financial position.

2.1 Long-term investment mean the securities that the cooperative has intention to hold more than 1 year, and the securities that have no due date for redemption. Also, it is the investment which can be invested according to the cooperatives’ laws or the requirement of Board of National Cooperative Development (NCD).

2.2 Long-term loans-net mean the money that lends to other cooperatives and to members in all kinds which have the repayment period more than 12 months after the date of balance sheet.

2.3 Long-term account receivables-net mean the receivables that have aging of debt or right to claim that will not be due in the next accounting period, less the allowance for doubtful accounts.

2.4 The value of animal breed-net mean the value of animal breed that are not directly available for sale but hold for breeding or giving product that expect to have useful life more than 1 year, less with its amortization.

The value of animal breed which has useful life less than 12 months after the date of the statement of financial position, it shall be presented as other current assets with the amount of value less with the accumulation of allowance of value e.g. breeder chickens, etc.

2.5 Property, plant and equipment-net mean tangible assets which the cooperatives hold for production for distribution of goods, rendering rental service, for the operation which expect to receive the benefit more than 1 accounting year including things that keep for maintenance or repairmen. Thus it shall be the assets held for sale, it can be classified as follow:

2.5.1 Assets that no need to be deducted with depreciation e.g. land

2.5.2 Assets that need to be deducted with depreciation e.g. building, construction, vehicles, office equipment (including computers and accessories), etc. They will be presented the net balance with the accumulative depreciation.

When the cooperative has one item of Property, plant and equipment, it should be indicated name instead of "Property, plant and equipment-net"

For the cooperatives held for the notification of the cooperative registrar' regulation according to accounting of cooperative B.E.2542 and recording depreciation by deducting directly to total fixed assets, it shall be presented assets with book value.

2.6 Intangible assets mean the assets that is invisible and not physical, it has characteristic in any rights according to laws. They are presented as net balance with amortization expenses of intangible assets as follow:

2.6.1 Leasehold means the right of tenant has directly on property that rent from the owner which the tenant shall pay the leasehold with the huge amount. Thus most leasehold will be long-term rental.

2.6.2 Right for utilization of plant, property, equipment and others mean right that the cooperative has benefit in plant, property, equipment and others with no ownerships in such assets. The cooperative shall pay the money for getting such right.

2.6.3 Patents mean the right by laws which the government gives to someone in production for sale or getting the benefit from new invention. In case of the cooperative buys the patent from others, it shall be recorded with the paid amount. In case of the cooperative registers its own invention, the expenses for getting such patent which are the invention expenses, research, registration expense, etc will be the cost of patent.

2.6.4 Concession means the contract that government agrees to give the operation right related to the government's assets. The cost of concession is the expenses for requiring concession.

2.6.5 Software rights mean right for using software that belong to others.

It shall present about the source of using right and useful life in note to financial statement.

In case of the intangible asset has one item, it shall be indicated name of intangible asset instead of intangible asset per examples as below:

Property, plant and equipment - net
Rights for building utilization	50,000.00
Other non-current assets
Total assets	80,000.00

2.7 Other non-current assets means other non-current assets besides the item No. 2.1 -2.6 which comprise the followings:

2.7.1 Prepaid expenses are expenses or costs that have benefit to the cooperative more than 1 accounting period, e.g. improvement, decoration, repairmen of assets that spend the huge amount, etc. However, the prepaid expenses are excluded the huge amount of damage loss and occurred losses that have intention to amortize as expense for more than 1 accounting period in order to not affect to net income.

The presentation of the prepaid expenses will be net balance with adjustment of partial amortization to expenses.

2.7.2 Other non-current assets, e.g. land which is unused in operation of current year and no intention to dispose, land pending for extension, deposit, retention money, advance for lawsuit for the portion that will be process more than 1 year , etc.

When the item in other non-current assets has amount not less than 5% of total assets, it shall be presented solely item as such other non-current asset by indicating clearly name and rank it before the item “other non-current assets” as the example below:

Property, plant and equipment - net
Intangible assets
Retention	5,000.00
Other non-current assets
Total assets	80,000.00

In case of the item of 5% of total non-current assets of current year differs from amount of the prior year, the current year will be the main for presentation.

In case of other current asset has only one item, it shall indicate the name of such other non-current asset instead of “Other non-current assets” as the example as below:

Property, plant and equipment - net
Intangible assets
Retention money	1,000.00
Total assets	<u>80,000.00</u>

It is not required to present note to financial statement.

Liabilities and Cooperative Shareholders' Equity

Liabilities

mean the current commitment of cooperative which are result of accounting transaction and events in the past. It might occur from the normal operation or the trading tradition. The cooperative shall pay the commitment with assets or service e.g. cash payment, transferring assets, rendering of service and value of commitment which need to pay can be reasonable measured.

Liabilities comprise the followings:

1. Current liabilities
2. Non-current liabilities

1. Current Liabilities mean liabilities which have payment period within 12 months after the date of statement of financial position or within the cycle of normal operation of cooperatives. It is expected to pay by current assets or has other current liabilities. Certain liabilities should be classified as current liabilities even it will be due in more than 12 months after the date of statement of financial position e.g. Trade accounts payable, other accrued expenses due to it is the portion of working capital spending in the normal operation cycle of the cooperatives.

1.1 Bank Overdraft and short-term loans

1.1.1 **Bank Overdraft** mean the money that cooperative has debt with the bank which occurred from the withdraw more than the deposit by making overdraft agreement with the bank as an evidence.

1.1.2 **Short-term loans** mean short-term debt from borrowing by making borrowing agreement as evidence.

It shall present item No.1.1.1 and 1.1.2 in the same item

1.2 Trade account payables mean the commitment that shall be paid for goods and services that the cooperative receives in normal trading transactions.

1.3 Current portion of long term-loans due within one year mean the current portion of non-current liabilities that will be due within the next 1 year including the portion of non-current liabilities that exceed the payment due but not yet paid

1.4 Deposits mean the money that the cooperative receives from members and other cooperatives, which are saving, special saving, fixed deposit and other deposits.

1.5 Accrued subscriptions to the Cooperative League of Thailand means the money that cooperatives allocate from annual net income for payment the maintenance fee to the Cooperative League of Thailand according to laws but the cooperative has not yet pay to the Cooperative League of Thailand.

1.6 Other Current liabilities mean accrued expenses, advance income, advance, dividend/accrued average refund, accrued refund, account receivable in credit balance and non-current liabilities which are not included in items No. 1.1-1.5.

When the item in other non-current liabilities has amount not less than 5% of total current liabilities, it shall be presented solely item by indicating clearly name and rank it before the item of other non-current liabilities by presenting the same as the example given in “Other current assets” and if the item 5% of other non-current liabilities of the current year differs from amount of the prior year, the current year will be the main for presentation.

In case of other current liability has only one item, it shall indicate the name of such other non-current liability instead of “Other non-current liabilities”, the same as the example given in “Other current liabilities”

2. Non-Current liabilities represent liabilities which are due more than 12 months since the date of statement of financial position or in excess of normal operating period of cooperative.

2.1 Long-term loans represents long-term liability deriving from borrowing by entering into loan agreement as evidence less current portion of long-term loans (which is separately presented in No. 1.3)

2.2 Hire-purchase payable represents commitment which cooperative has to settle assets cost according to installment plan.

2.3 Other non-current liabilities represent liabilities which cannot be presented under current liabilities. For instance; pension of employee, security deposit of officer, retention, donation with specific purpose, fund or other funds deriving from amortization for the year, etc.

In case of certain other non-current liabilities balance is more than 5% of total liabilities, such non-current liabilities has to be separately presented with specific name and sequenced prior other non-current liabilities by presenting similar transaction according example provided in “Other non-current assets” transaction. If 5% transaction of other non-current liabilities of current year and prior year is unequal, current year transaction will be a base for presentation.

If there is a single other non-current liabilities and its balance is more than 5% of total liabilities, such other non-current liabilities name has to be specified superseding “Other non-current liabilities” transaction by presenting similar transaction according example provided in “Other non-current assets”.

Cooperative Shareholders’ Equity

represents membership portion holding cooperative’s shares which comprise of:

1. **Share capital** represents share amount which membership already paid. It should be split into 2 transactions; fully paid up share capital and partially paid up share capital. Fully paid up share capital shall be presented and delete other transaction if cooperative has normal share capital only.
2. **Reserve fund** represents capital of cooperative deriving the appropriation of net profit for the year which cooperative appropriates according to regulation including subsidy or assets which cooperative obtains from donation with unspecified purpose, transfer fund from other accumulated fund which appropriated for assets acquisition and already acquired, outstanding balance of transfer fund from other accumulated fund at the completion of fund objective. However, reserve fund can be withdrawn from account for compensating loss or in order to appropriate to reserve fund account to newly registered cooperative which is separate from an existing cooperative.

Cooperative shall present reserve fund less net loss in case of facing loss.

3. **Legal reserves** represents capital of cooperative which is appropriated from net profit for the year according to regulation in order to compensate to cooperative’s member, board and officer or for certain operation according to regulation, rules and others which are public interest fund, cooperative scholarship & seminar fund, fund for expansion, support fund, welfare promotion fund including fund or other funds deriving from amortization of the year and the appropriation from net profit of the year in aggregate.

4. Unrealized gain (loss) on investment

4.1 Unrealized gain on investment represents the difference between total net book value (total cost) of marketable investment which is lower than fair value of such investment and it is treated as surplus on the change of investment value. Suspense account is required until investment is sold; then, cooperative recognizes the difference as income in statement of income.

4.2 Unrealized loss on investment represents the difference between total net book value (total cost) of marketable investment which is higher than fair value of such investment and it is treated as discount on the change of investment value. Suspense account is required until investment is sold; then, cooperative recognizes the difference as expense in statement of income.

The presentation of unrealized gain (loss) on investment shall be presented difference of the aforementioned 2 cases. Loss shall be presented parentheses.

5. Surplus on asset valuation represents the difference between book value of assets required to appraise by increasing to fair value of such assets. Surplus on assets appraisal is transferred to reserve fund account proportionated to realize transaction when assets is used. The realized portion calculated from the difference depreciation calculated from net book value of new appraised value and depreciation of historical cost. In case of sell or abolish to use new appraised assets, such surplus on assets appraisal according to residual amount to reserve fund account.

6. Retained earnings (deficits) represent net income (loss) for the year which is excess to reserve fund and figures shall be presented in parenthesis.

7. Net profit (loss) for the year

Net profit (loss) represents operational performance of cooperative during accounting period and calculated by comparing revenue to expense of cooperative. If revenue is higher than expense, it is net profit and vice versa if expense is higher than revenue, it is net loss. It is a last transaction presented in statement of income and net loss is presented in parenthesis in case of operational performance is loss. Cooperative can withdraw existing reserve fund to compensate net loss.

Net profit for the year represents remaining of net profit which is deducted to deficit as a resulting from that net profit is higher than deficit.

Explanation for the Statement of Income Items
--

The Presentation of the statement of income and supporting item to financial statement of agricultural, land settlement, fishery, consumer, service and credit union cooperatives which have the share capital greater the or equal to Baht 1,000,000.00 (Only Credit union cooperatives operate their business relating credit, cash deposit and others) shall follow the aforementioned guidelines and the following types and definitions as follow:

Heading of the statement of income

For the year ended..... (the fiscal year-end date of the current year) e.g. For the year ended March 31, 2014 etc.

Business of agricultural, land settlement, fishery, consumer, service and credit union cooperatives comprise of:

Credit business is the business which cooperative provides loan or agricultural credit to member according to lending rule and condition in order to support member making a living or necessary spending for instance, various type of loan which having various condition as stipulated in the Cooperative's regulation.

Trading business is the business which cooperative procures or purchases agricultural machines, supply equipment, chemical, gasoline & lubricant including consumer products necessary to sell to member and non-member according to the Cooperative's regulation.

Compilation of product business is the business which cooperative gathers product of member and non-member. For example; paddy, corn, rubber, raw milk soy, etc. in order to sell at a good price and project member's benefit and it is a business negotiation mechanism.

Transformed agricultural product and manufacturing business is the business which cooperative bring product gathered from member and non-member in order to sell and reproduce which can be categorized according to product obtained from producing process as follows:

1. Rice means paddy transformed to rice in order to sell
2. Other products mean other products transformed to finished goods in order to sell.

For instance; dried longan, dried durian etc.

3. Milk product means raw milk transformed to milk product in order to sell. For instance; pasteurized milk, UHI milk etc.

4. Trade domestic animal means domestic animals which are looked after for sell. For instance; cow, pig and chicken etc.

5. Product from domestic animal means domestic animals which are looked after in order to sell its product. For instance, to look after hen in order to sell eggs.

In case of the cooperative having another products a part from the aforementioned, cooperative shall present such additional products in order to realize about cost of sale, gross profit (loss) and Net Profit from specific business. For instance; cooperative produces feed for sales etc.

Service and agricultural support business is the business which cooperative provides support to agriculturist in term of knowledge sharing and agricultural promotion; cultivate planning including soil service and maintain in order to increase benefit of member's cultivate. For instance; pump service, surface leveling, water delivery management system etc.

The presentation of transactions in statement of income:

Revenue from sales/services rendered represents revenue from credit business, trading business, compilation of product business, Transformed agricultural product and manufacturing businesses and Service and agricultural support business. To combine of 5 businesses by presenting revenues of trading business, compilation of product business and Transformed agricultural product and manufacturing businesses with net sales (sales deducted by goods returned and discount).

Cost of goods sold/services rendered represents costs of products or services for the combination of 5 businesses by presenting cost of sales/service in aggregate amount.

Gross profit (loss) represents the difference between Revenue from sales/services rendered and costs of goods sold/services rendered. In case of (Revenue from sales/services rendered) is higher than costs of goods sold/services rendered, it is gross profit. In another hand, the difference is gross loss which shall be presented parentheses.

Revenue from specific business represents revenue which can be clearly split into specific business; however, it is not core revenue of such business. For instance; revenue from penalty, recover from doubtful debt etc. including other income which can be clearly split to specific business and specific revenue shall be presented in aggregate amount.

Expenses from specific business represent expenditure which can be clearly split into specific business. For instance; selling expense, doubtful debt, loss from missing inventory, interest expense on loan of specific business including operating expenses which can be clearly split to specific business and Expenses from specific business shall be presented in aggregate amount.

Profit (loss) from specific business can be calculated by using gross profit or gross loss plus specific revenue from specific business and deducted by expenses from specific business in order to present profit or loss of each business (In case of loss, figure has to be presented in parentheses) and prepare supporting item to financial statements 1 – 5.

Other incomes represent other income which is not revenue from cooperative business and revenue which cannot be classified to specific business. For instance; interest received from financial institution, interest received from other cooperatives, entrance fee, returns on investment, gain on sales of assets, and rewards from other lots issued by banks and financial institution, other incomes etc. by presenting other incomes in aggregate amount and prepare supporting item to financial statements 6. In case of no other incomes in current and prior years, this transaction shall be deleted and supporting detail is not required.

Total represents the bringing of profit (loss) from specific business plus (less) other incomes. In case of no other incomes in current and prior years, this transaction shall be deleted.

Operating expense represents general expenditure occurred in the overall business management, for instance; salaries and wages, overtime, meeting allowance, transportation allowance, stationary expenses, entertainment, officers' pension, depreciation of building & equipment, utilities etc. by presenting in aggregate amount and prepare supporting item to financial statements 7.

In case of depreciation of building & equipment has to be specified clearly, for instance, depreciation – equipment, depreciation – office equipment, and etc.

Net profit (loss) represents the result of total amount deducted by Operating expense. The result presents as net profit or loss (In case of net loss shall be presented parentheses).

Explanation for items 1-7 in the financial statements shall be presented in the determined format by having numbering of supporting item to financial statements. In case of no supporting details, referring number should be adjusted.

Supporting details of profit (loss) from specific business of each business (supporting item to financial statements 1-5) shall be presented figure in percentage of each transaction comparing to total sales or total major revenue of each business which percentage of total sales or total major revenue is equal to 100.

Other supporting details (supporting item to financial statements 6) and operating expenses details (supporting item to financial statements 7) shall be presented in percentage of each transaction comparing to total sales/service rendered in statement of income. Therefore, total percentage in other income details and operating expense details shall be equal to percentage of such transaction in statement of income and total amount of supporting details of each set shall be equal to figures stated in statement of income.

Observation for the preparation of statement of income

1. If cooperative operates a single business, shall adjust statement of income format as appropriate.
2. Supporting item to financial statement especially for other incomes, shall be prepared if there is more than a transaction. If there is only a single transaction, it shall be specified clearly in statement of income.
3. In case of no revenue of certain business due to stop operation or other reason but still having specific expenses occurred, it shall be presented as specific expenses of such business and it will be reflected loss of such specific business
4. In case of cost or certain expenditure presented in statement of income when comparing to revenue and its percentage is higher than 100 which can be presented in percentage that higher than 100 and calculation is time is not required.

Explanation for the Statement of Cost of Goods sold/Service Rendered Items

The statement of cost of goods sold/service presentation and supporting item to financial statement of agricultural, land settlement, fishery, consumer, service and credit union cooperatives which have the share capital greater the or equal to Baht 1,000,000.00 (only Credit union cooperatives operate their business relating credit, cash deposit and others) shall follow the aforementioned guidelines and the following types and definitions as follow:

Heading of the statement of cost of goods sold/service rendered
--

Similar to statement of income

Cost of goods sold of each business consist of the followings:

Credit business represents interest expenses on loan which borrowed in order to lend to members.

Trading business needs to separate transaction according to type of products. For instance; agriculture type, fuel type, general products type, installment products type, consignment products type etc. Cost of sales of each product comprise of beginning inventory balance plus purchase (net return and discount) and expenses relating to purchase deducted with obsolete inventory (if any) and ending inventory balance which spilt into normal and obsolete inventory.

Compilation of products business Its cost of sale of compilation of product business comprise of beginning product balance plus purchase which is the portion purchase for sell only (to separate each type clearly and to use the amount net with return and discount) and expenses relating to purchase deducted with obsolete inventory (if any) and ending product balance which spilt into normal and obsolete inventory.

Transformed agricultural products and manufacturing business To separate transaction according to type of products. For instance; paddy, other products, milk product, domestic animal, domestic animal in order to sell its products etc. Cost of sales of each product comprise of beginning inventory balance plus production cost (statement of production costs.) deducted with obsolete inventory (if any) and ending product balance which spilt into normal and obsolete inventory.

Service and agricultural support business For instance; expense varies directly to agricultural promotional service provided to member. For instance, labor cost relating to the adjustment of space to pump water into field, gasoline for agricultural machines etc.

Observation for the preparation of statement of cost of goods sold/service rendered

1. Beginning inventory balance of current year shall be equal to ending inventory balance or prior year.
2. Expense relating to the last purchase inventory which has not been sold shall be treated as cost of ending inventory to be carried forward to next year. If there is partial sale, expense relating to purchase has to be averaged proportionately and the portion of ending inventory shall be included as a part of ending inventory balance of the year.
3. If there is no any transaction according to statement of cost of sales/service, such transaction shall be deleted
4. If cooperative operates credit business as a single business, the preparation of statement of cost of goods sold/service rendered is not required.

Explanation for the Statement of Production Costs Items
--

The statement of production costs presentation and supporting item to financial statement of agricultural, land settlement, fishery, consumer, service and credit union cooperatives which have the share capital greater than or equal to Baht 1,000,000.00 (only credit union cooperatives operate their business relating credit, cash deposit and others) shall follow the aforementioned guidelines and the following types and definitions as follow:

Heading of the statement of production costs

Similar to statement of income

The presentation of transaction in statement of production costs shall be separated production cost according to type. For instance; agricultural e.g. paddy, other products e.g. dried longan, raw milk, domestic animals for sale and domestic animal grown for sell its product etc.

Production cost of each type comprise of beginning raw material balance plus purchase of raw material (net of return and discount) and expense relating to purchase deducted with ending raw material balance and its result is raw materials consumed. Raw materials consumed plus salaries and wages relating to production and production overhead e.g. gasoline and lubricant, sack charge, packaging, water-electricity of factory, repair & maintenance of machinery and equipment, depreciation of factory/mill/machines and equipment including factory supplies etc.

Observation for the preparation of statement of production cost

1. Purchase transaction of raw material is the raw material purchased for production only.
2. The preparation of statement of production costs is applicable only to cooperatives which its operation relates to agricultural product transforms and product manufacturing.
3. For certain cooperatives operate transformed agricultural products and manufacturing business in multiple types, statement of production costs shall be prepared separately according to type of production.
4. The cooperative which has no its own mill but the cooperative takes paddy and engaged another mill to polish paddy and pay as service expense, Cooperative shall create rice mill charge and treated as the cooperative operates as Transformed agricultural products and manufacturing business and statement of production costs has to be prepared and using statement of production costs is allowable. Therefore, cost of paddy which milled by another mill shall be presented at same line of paddy consumed for production. Mill charge shall be presented as same line of wages and sack used for packing rice, broken-milled rice and rice bran recorded and presented as same line of production overhead. Other transactions shall be deleted.

5. Similar to No. 4 but cooperative acts in form of barter meaning that mill whom is engaged will obtain broken-milled rice, rice bran and chaff as compensation. This is treated like cooperative operates as transformed agricultural product and manufacturing business and has to prepare statement of production as mentioned in No. 4 except for there is no wages transaction.

Notes to the Financial Statements

etc.

(Sample for Notes to the Financial Statements)**Cooperative****Notes to the Financial Statements****For the year ended****1. Significant Accounting Policies**

- ◆ Cooperative maintains its accounting records based on an accrual basis.
- ◆ Cooperative recognizes gain (loss) on investment partially by determining the calculation of net book value per unit using weighted average/or first-in first-out methods.
- ◆ Cooperative recognizes loss on sales of assets disposition or loss from natural disaster as expenses in the year which such transactions occurred.
- ◆ Cooperative records installment/hire purchase sales by presenting gross profit as deferred income and recognizes as income of each accounting period according to settlement due or recognizes gross profit as income in full in accounting period which installment/hire purchase transaction occurred.
- ◆ Cooperative records interest from installment sales by presenting deferred interest on installment sales in order to offset against installment receivable in statement of financial position. For the recognition of deferred interest as income of each accounting period, cooperative calculates from net cash as at the beginning of period, settlement of each period according to interest rate of installment plan by using annuity table (To be used in case of long installment period approximately 10-15 years) / or cooperative calculates according to sums of the year digit method (To be used in case of short-term installment period approximately 3-4 years)
- ◆ Cooperative records installment products which are seized back from bad debt receivable with net amount of outstanding installment receivable deducted by deferred interest of such customer. As at the end of the year, cooperative appraises the valuation of seized products for sales with the lower of net book value or net realizable value.
- ◆ Cooperative recognizes revenue from sale through-account when products are delivered to offices or governments.
- ◆ Cooperative records trading transaction of sugar cane which cooperative is the representative of member and getting compensation in form of management fee likewise cooperative purchase and sells.
- ◆ Cooperative records income from fine by calculating on daily from outstanding balance which maintain longer than credit-term as stipulated in agreement.

- ◆ Cooperative records expense directly to the foster of pigs in order to sell, for example, meal and medicine for pigs as cost or capital of domestic animal and will be recognized as cost of sale when sales.
- ◆ Cooperative calculates cost of paddy which is used for mill by using the calculation method reversely from actual rice produced in an average standard or result of the rice mill test of cooperative. 1,000 kilograms paddy can be milled to milled rice kilograms as a basis.
- ◆ Short-term investment/long-term investment which is investment in non-marketable security presented at cost. Short-term investment/long-term investment which is investment in marketable security presented at fair value. Cooperative recognizes the change of investment valuation as unrealized gain (loss) of investment which is separately presented in cooperative capital and will be recognized as income or expense in statement of income when cooperative sells such investment.
- ◆ Investment in bond held to maturity presented at amortized cost (meaning that cost of bond obtained deducted with returned principal and plus or deduct with accumulated amortization of the difference between initial cost and par value).
- ◆ Cooperative records allowance for doubtful debt amount which is sufficient for future loss by determining each outstanding receivable as at year-end or calculates according to percentage of outstanding receivable balance as at year-end date or calculates according to percentage of outstanding receivable balance as at year-end date according to aging of each receivable.
- ◆ Cooperative recognizes inventory valuation with lower of cost or net realizable value. Cost is calculated by first-in first-out method or weighted average cost or by products type is calculated by first-in first-out method and product type is calculated by weighted average cost method.
- ◆ Cooperative values self-manufactured products by cost plus production overhead.
- ◆ Cooperative values finished goods and work in process according to average cost which is approximate to the lower of present production costs or net realizable value.
- ◆ Cooperative values outstanding supplies at cost.
- ◆ Depreciation of building and equipment calculated by straight-line method at the rates determined by cooperative's registrar or sum of the years digits method and amortization period is in accordance with condition determined by cooperative registrar except for land.
- ◆ Cooperative records (identify type of assets) acquired by donation/subsidy from in accounts of land, building, construction account and calculates depreciation by method according to the rates determined by cooperative registrar except for land.
- ◆ Leasehold right or useful right in (Property, plant and equipment) amortized according to right received/useful lives.

- ◆ Right to use various software amortized according to useful lives or the change of using new software.
 - ◆ Patent amortized by straight-line method at the rate of per annum starting from
 - ◆ Cooperative obtains concession to operate which having period year
 - ◆ Land which the cooperative office receives for settlement, recording at fair value
 - ◆ Amortization expense for.....years
 - ◆ Maintenance, repair and minor replacement of assets are allowed to be expenses deducting from revenue. The expansion of the building and major machine and equipment are allowed to capitalise to fixed asset costs.
 - ◆ The cooperative office has constructed the building using policy to capitalise interest from financing to cost of fixed assets and the cooperative will stop capitalizing when the building is ready to use.
- etc.

Explanation for Notes to the Financial Statements Items

Notes to the financial statements (notes) form an integral part of these statements which provide information in preparation of financial statements regarding measurement, accounting policies, clarification of individual statement line-items and additional relevant information that is not presented elsewhere in the financial statements. The notes also describe changes or unusual items and subsequent events to financial statements.

Information subject to disclosure in the notes:

1. Measurement basis for preparation of financial statements discloses the basis adopted by cooperative for items in financial statement e.g. historical cost, current cost, net realizable value, fair value or present value which are disclosed to each assets and liabilities.

2. Accounting Policies mean accounting principles or accounting methods which cooperative adopt in accounting and preparation of the financial statements. Disclosure of accounting policies should not be duplicated with other details which are already presented in financial statements but refer to those relevant details and provide accounting standards adopted by cooperative.

Example for recommended disclosure of accounting policies

- ◆ Revenue recognition
- ◆ Expense recognition
- ◆ Valuation of investment
- ◆ Allowance for doubtful accounts and bad debt
- ◆ Valuation of inventory
- ◆ Valuation of assets held for sale
- ◆ Accounting for depreciable assets and depreciation method
- ◆ Intangible assets – accounting or amortization
- ◆ Capitalized borrowing cost to cost of assets
- ◆ Accounting for profit and interest from installments sales
- ◆ etc.

3. Additional information such as:

3.1 Detail of explanation for financial statements items

3.2 Significant subsequent event to date of financial statements but before date of auditor's report which affects financial statements. Summary and estimation of impact to financial statements of such events are required disclosure. If the impact can not be estimated, the fact of event shall be disclosed

3.3 Provision and contingent liabilities and contingent assets such as cooperative is in a lawsuit for accusing or being accused which the outcome can be gain from receiving compensation or loss from paying compensation. The disclosure is required for contingent liabilities or contingent assets for each type and estimation of impact to financial statements.

Guidelines for preparation of notes to financial statements are as followings:

1. Significant accounting policies is required disclosure for the basis of preparation of the financial statements and the specific accounting policies used by cooperative as well as accounting measurement in preparation of the financial statements.

However, the disclosure provides only information relevant to cooperative's adoption and any irrelevant or not applicable shall be excluded. Any adoption apart from example shall be additionally disclosed.

2. Cash and deposits at financial institutions is required disclosure for detail of Cash and deposit and financial institutions as at year end by separately presented in 2 categories as follows:

- ◆ **Cash** is disclosed ending balance as at year end

- ◆ **Deposits at financial institutions** is disclosed ending balance as at year end by separately presented in different type of deposit; current account, saving account and fixed deposit.

However, in case of current account having credit balance without overdraft agreement with the bank, credit balance of such account shall be offset with debit balance in other current accounts. If total current accounts are credit balance, the amount is presented in bracket which is offset with other cash and cash in bank to derive at the total balance. Moreover, disclosure is required for obligation for cash at bank (if any).

If cooperative has made agreement with bank for automatic transferring from saving account to current account when paid check is cashed from bank, any credit balance in current account (bank overdraft) is required adjustment at year end by transferring cash from saving account to current account until the amount in current account equals to minimum balance required by the bank.

- ◆ **Certificate of deposit, Government Savings Bank's lottery and other saving lottery** which are issued by bank or financial institution shall be disclosed under Cash and deposit and financial institutions next to fixed deposit.

Obligation in cash at bank shall be disclosed separately for each bank account according to guideline in the given example. If certificate of deposit or saving lottery is used as guaranty or pledge, disclosure is additionally required.

Note that in case the cooperative has deficit cash, it should be disclosed how the cooperative will manage the situations happened by adding an additional note to the financial statements.

3. Deposit at other cooperatives is disclosed detail as at year end by separately presenting each item and total balance according to guideline in given example. Types of deposit to other cooperatives; saving and special saving shall be disclosed in this section.

If there is only deposit to a cooperative federation or a cooperative and only one type of deposit, notes to financial statements is not required but the item is described as deposit to cooperative – (type of deposit) or deposit to cooperative.....(type of deposit) instead of deposit to other cooperatives.

4. Investment shall be disclosed for ending balance of short-term investment and long-term investment as at accounting period by presenting in statement of financial position by separating into marketable securities exchange and non-marketable securities.

In case of marketable securities, it shall be separately presented as bonds, debentures and shares and disclosed fair value and cost or amortized cost. In case of investment in debt held to maturity including the presentation in aggregate amount plus or less with impairment on investment (the difference between cost and fair value). In case of non-marketable securities, it shall be disclosed at cost.

5. Loans – net shall be disclosed outstanding details of short-term loans and long-term loans as at the end of accounting period as presented in statement of financial position by presenting each of loan receivable, for instance, loan to cooperative, short-term loans, medium-term loans receivable and other loans splitting into short-term and long-term including presentation at aggregated amount less allowance for doubtful accounts and allowance for doubtful accounts discrepancy. Outstanding balance is short-term loans – net and long-term loans – net. Additionally, to disclose amount of allowance for doubtful accounts and allowance for doubtful accounts discrepancy of each type of loans at the end of this topic. The word “Net” shall be deleted in case of no allowance for doubtful accounts and allowance for doubtful accounts discrepancy.

6. Account Receivables – net shall be disclosed outstanding details of short-term receivables and long-term receivables as at the end of accounting period as presented in statement of financial position by presenting each type of receivable, for instance, Notes receivable, trade account receivable, installment receivable (amount net from deferred installment interest), service receivable and other receivable splitting into short-term and long-term including presentation at aggregated amount less allowance for doubtful accounts and allowance for discrepancy debt. Outstanding balance is short-term receivables – net and long-term receivables – net. Additionally, to disclose amount of allowance for doubtful accounts and allowance for discrepancy debt of each type of loan receivable at the end of this topic. The word “Net” shall be deleted in case of no allowance for doubtful accounts and allowance for discrepancy debt.

Other receivable which have amount more than 10% of total account receivables shall be presented those receivable separately by specifying their names and ordering before other receivable.

7. Accrued Interest receivables – net shall be disclosed accrued interest receivable as at the end of accounting period as presented in statement of financial position by presenting into accrued interest receivable and accrued interest receivable – other cooperative including presentation at aggregated amount less allowance for doubtful accounts. Outstanding balance is accrued interest receivable – net. The word “Net” shall be deleted in case of no allowance for doubtful accounts.

8. Inventories shall be disclosed ending inventories as at the end of accounting period as presented in statement of financial position by presenting outstanding Inventories - normal plus inventories obsolete. However, notes to the financial statements is not required if there is only outstanding inventories – normal balance.

9. Other current assets shall be disclosed component of other current assets details as at the end of accounting period. For instance, accrued income, prepayment, refundable fund etc. which each item disclosed having amount less than 5% of total current assets including the presentation in aggregated amount.

10. The value of animal breed – net shall be disclosed outstanding details of animal breed as at the end of accounting period as presented in statement of financial position by presenting each type of animal breed which having useful life more than 1 year including presentation at aggregated amount less accumulated breed depreciation. Outstanding balance is animal breed - net. Additionally, to disclose amount of allowarce for animal breed of each type at the end of this topic.

In case which cooperative records animal breed depreciation by reducing animal breed balance directly, it shall be disclosed by presenting outstanding balance of animal breed - net animal breed depreciation.

11. Property, plant and equipment – net shall be disclosed outstanding details of Property, plant and equipment as at the end of accounting period as presented in statement of financial position by presenting each type of transaction which is land, building and construction, machines and equipments, vehicles and office equipment including presentation at aggregated amount less accumulated depreciation. Outstanding balance is Property, plant and equipment - net. In case which cooperative records depreciation by reducing Property, plant and equipment balance directly, it shall be disclosed by presenting outstanding balance of Property, plant and equipment at book value.

◆ In case of change due to assets appraisal, it shall be disclosed that it is conducted by independent appraiser which having expertise or reliable or not including appraisal basis and to prepare note to financial statements in order to present change amount as follows:

Cooperative records depreciation in accumulated depreciation account

Property, plant and equipment – net comprises of:
